Department of Mathematics Comprehensive Examination 2020 Spring Semester Part 1: Core Classes

Directions:

Math 670

- 5. Consider the equation $x^2 = 1 + \sin x$.
 - (a) Prove that the equation has exactly two solutions.
 - (b) Choose one of the two solutions. Use Newton's Method to find an approximation with an absolute error of less than 10⁻

Math 675: Di erential Equations

_

5. Consider the matrix A =
