General Directions (this will include the number of practice days, and time per practice session, that you recommend)

#1- Making final sounds in words

(Status of skill-what can the client do now?)

(Activity, materials, necessary support-what is needed to set up the activity, how the caregiver can support the client's success; try to give an example to help make it clear. Be family friendly, and avoid professional jargon.)

(2nd paragraph with a more functional application, if appropriate)

sock, shoes, eat,
